Scouting Report

vs Seattle 9/7/08
Video/Game

MINNESOTA OFFENSE	MINNESOTA DEFENSE
1. Play up tempo looking to push ball up either sideline on every possession. Will try to pass ahead whenever possible.	1. Harding will pressure full court entire game on made shots. Inbound defender will double team primary ball handler dead ball out of bounds. Once inbounds pass is made they will match up.
2. Cannot pass ahead will flow directly into early offense. Have simplified their early offense. Still form sideline triangle and try to isolate post on low block. However, on ball reversal will run a baseline screen (flex cut). Augustus most effective.	(Harding did a great job of denying Bird the ball first half).
3. Early offense also will flow into side screen action.	2. Play strong on ball defense and pass denial on wings. However, weak against back cuts and dribble penetration.
4. Set offense primarily built around Augustus. However, will also isolate Anosike with strong low post ups and at the elbow.	3. Trail cutters. Very susceptible dribble hand offs and basket cuts
5. On ball screens are screen and pops rather than rolls to the basket. Anosike extremely good at hitting the 10"-12' jumper. Houston is also active in posting up and 1 on 1 drives from elbow.	4. They have real problem defending on ball screens. Show & recover or go behind on ball screens. Rasmussen really show hard (can slip the screen or drive off hard to pick up a foul.)
6. Will run the majority of set offense out of a double side post ("Horns") alignment. Will mainly drive off high posts or feed them for 1 on 1 Isolations.	5. Switch occasionally on off ball screens as a result of getting beat rather than attacking.
7. DeForge only spot up shooter. (No open looks). All rest dribble penetrators especially Augustus and Wiggins. Need good backside support against their drives.	6. Fairly aggressive on low post ups. When guarding a high post Ohlde will play off using her long wing span.
8. Wiggins, off the bench, is instant offense. She will look to score and will attack the basket on dribble drives. They run a lot of mid screen action for Wiggins. Will also rebound and take it coast to coast. Quick.	7. Second efforts. Lack of height hurts them on offensive boards. Go to the offensive boards.
9. Went mainly to fast breaks and mid screens in second half after losing control of game and 11 point halftime lead. Susceptible to large runs during the game. Seattle had two in second half (17-5 and 15-0). Mainly as a result of poor shot selection, 1 on 1 play (Augustus) and lack of offensive rebounding and defensive balance.	8. Will occasionally deploy a 2-3 zone on sideline out of bounds situations or after time outs. Ran 2-3 zone at the end of the first period and start of second period. Passive zone.

10. Must be prepared to defend:
  a. Early sideline pushes.
  b. Strong low post up isolations in early offense.
  c. Side and mid On Ball screens especially the roll.
  d. Augustus and Wiggins penetrations along with Anosike & Houston one-on-one isolations.
	9. Will run out on all defensive rebounds and turnovers. Will make a long outlet to Harding near mid court line. (Smother rebounder and deny Harding).

	Notes: Minnesota much improved over previous game scouted at Seattle! Career game for Harding & DeForge. Second half melt down (out scored 61 – 42) Mid Screens & free lance. Five point game with a minute to play.

Notes: Against Los Angeles isolated Anosike (and Houston) a more on Low and High Post feeds.

Early Offense

Lynx will play up tempo and pushing the ball up sideline off every defensive rebound and turnover. On missed shots they will advance the ball up a sideline either on the dribble or pass ahead. On made shots, their post Ohlde (or Rasmussen) will inbound the ball to Harding. Shooters Augustus and DeForge will run out to corners and Anosike will post up low.
Pass Ahead

Kick Ahead Option

Harding will pass ahead to DeForge who will not hesitate to shoot the ball.

Augustus has a tendency to put ball on floor on the pass ahead.
